

Federico Barbieri

Date of birth: 19/09/1994

Place of birth: Milan

Nationality: Italian

Address: Peschiera Borromeo, Milan, Italy

✉ federico1.barbieri@polimi.it

I am an accurate person and a hard worker, traits that I always had and further developed in my 10 years' experience of golf practice. Nonetheless, I am perfectly capable of working in team, due to many group-works done in university. I am also curious and love travelling and getting to know new places and cultures. I am currently a PhD student in the Logistics Research Group of Politecnico di Milano, where I carry out my research on the adoption of autonomous vehicles for a resilient and sustainable urban distribution.
