SKILLS

- Team Working
- Problem solving
- Multitasking
- Handcrafter

ABOUT ME

Born in Milan, I am currently attending the first year of PhD in Management engineering at the Politecnico di Milano. After a bachelor's degree in Mechanical Engineering, I decided to explore new horizons in engineering, attending the master of science in Management Engineering to get a broader view. The idea of continuing my studies with a doctorate was born after the experience of writing the thesis and the possibility of getting to know a new work environment.

The sea is my great passion. I attended several sailing courses and over the years I have developed a considerable interest in this sport until in 2014, I become a sailing instructor at Les Glénans. Since then, I have been teaching. Sailing has taught me to communicate effectively, to work in a team, to manage difficult, unexpected situations and above all to make the best use of the resources available at the moment. I am a curious person, available and always looking for new stimuli in life that help me overcome my limits.

EDUCATION HISTORY

Politecnico di Milano (Feb. 2022 – Now)

PhD candidate (37th cycle) at School of Management of Politecnico di Milano
Research topic: "Mobility: demand and supply management and monitoring"

Politecnico di Milano (Sept. 2019 – Dec. 2021)

Master of science in management engineering, stream Industrial Management.

- Thesis title: "The impact of Covid-19 on logistics – A multiple case study from Italy"

Politecnico di Milano (Sept. 2015 – Mar. 2019)

Bachelor's degree in mechanical engineering, stream Industrial plant Engineering.

- Thesis title: "Progettazione ed implementazione dei magazzini automatici in Industria 4.0"
-

WORK EXPERIENCE

Sailing instructor (2015 – 2020) – Council of Saint-Raphaël

Every summer I work 6 to 8 weeks as a sailing instructor at the municipality of Saint-Raphael where I teach catamaran, wind surfing and dinghy

Internship (Nov. 2018 – Feb. 2019) – LCS Group (Usmate Velate)

As part of the attainment of the bachelor degree, I carried out a three-month curricular internship at the LCS group, designing automatic warehouses with 2D and 3D CAD systems

Delivery (Oct. 2017 – Dec. 2019) – IGPizza (Milan)

I delivered pizzas three times a week to be more independent from an economic point of view and be able to follow my passions

Volunteering (Jun. 2014 – Aug. 2014) – Les Glenans (Sète)

I was a volunteer sailing instructor at the Les Glenans association to obtain the instructor's license
