PERSONAL PROFILE

I'm an Italian **PhD student** of School of Management at **Politecnico di Milano** focused on the **multi-stakeholder's acceptance** of **data-driven technologies** aimed at improving the **sustainability** within different supply chains.

I identify myself in a person who likes working in teams, sharing ideas and solutions with a proper argumentation, always with a look at other proposals in contrast, or not, with mine to reach the final goal in the most suitable way.

EDUCATION AND TRAINING
